ment of Hon, William McTavish, late | Memphis. Governor under the regime of the Hudson Bay Company, on a charge of tampering with members of the Counadian stiempts "to corrupt the repre-sentatives of the people," indicate dis-tinctly that Riel and his compatriots will stand firmly on their American platform of self-government. We have given the provisions of the Red River Bill of Rights-the document pre scribing the concessions demanded by the people from Canada-and we are not surprised that the agents of the gives general satisfaction. The six iron clads had returned to line. Secretary of England, and from Sir John Young, Governor General of Canada, as well as from the Directory of the Hodson Bay Company, should recognize the government of successful rebels as legitimate. Not only so, but he invited a legitimate negotiation on the terms of union with Canada. A convention was called, elected, and assembled, and it is the action of this body which influential parties now mader arrest at Fort Garry are seeking to defeat. We are entirely willing to believe that the representatives of the Red river people will stand "like a rock," to use Riel's expression, on their Republican ultimatum, and have some confidence, that, if rejected at Ottawa, it may yet be presented at Washington.
